

The **HILO bed** is one of the eye-catchers of the HIDDEN collection and combines **the best of both worlds into one elegant design.**

- 1 The extensive **comfort**, good **ventilation**, and **aesthetic** aspect of a box spring bed.
- 2 A highly **user-friendly open high-low mechanism** that is **invisibly** integrated into the bed.

In short, **innovation** and comfort come together in a bed that not only looks beautiful but also offers **functionality** at the highest level.

In the current range of (design) furniture, aesthetics increasingly take precedence, often resulting in the loss of the essence – namely furniture comfort. **HIDDEN** approaches the things differently and bridges the gap between ‘form’ and ‘function’: design without visual compromises, but with comfort and functionality **hidden** at the heart of the design.

The HILO bed perfectly embodies the HIDDEN philosophy: **‘What you don’t see is what you get.’**

This innovative **high-low bed** seamlessly integrates comfort and functionality, with a design carefully tailored to both aspects.

Enjoy a highly user-friendly and versatile bed that fully meets your style and comfort needs.

PURE

comfort

A **versatile bed** that you can fully adjust to your preferences. Whether it's the ideal sleeping position or a highly comfortable position to read a book or watch TV.

Thanks to the five-section mattress platform, adjustable height, and variable angle of inclination, countless combinations are possible.

- + The intuitive, **wireless hand switch** offers **two adjustable positions** you can easily customise, ensuring your favourite settings are always within reach.
- + Built-in 'legs-up' position where the foot section is 10 cm higher than the head end, ideal for **better blood circulation**.

PURE

functionality

A **user-friendly bed** with attention to ergonomics. Thanks to the adjustable height, you can easily make the bed without straining your back, shoulders, or knees.

- + The **open, cable-free undercarriage** also makes it easy to clean under the bed.
- + Integrated Ø 65 mm castors inside the bed frame make the bed **easy to move**.

PURE

aesthetics

The HILO bed is a designer box spring bed with a **high-quality and invisible high-tech mechanism** that offers unprecedented possibilities.

- + The high-quality finish of the HILO bed gives a refined appearance, even in the highest position.
- + Various finishing options due to the wide selection of fabric qualities and colours.
- + Available in various sizes.
- + **Adjustable to a height of 80 cm** excluding mattress.
- + The mattress platform has a comfortable, **ventilating anti-slip fabric**. Mattress support optionally available.
