

Domus Classic Soft

07597 The central idea behind the Domus relax chair is to offer optimal seating comfort in peace and quiet. The Classic mechanism can be easily adjusted by pushing yourself off a little from the chair, and this without using any levers. The optional “raising & sitting assist” provides ergonomic support for getting up and sitting down, thanks to the supporting seat movement.

Support

- The rounded sides consist of 2 OSB boards of 30 mm, and are firmly connected with a metal structure.
- The sides are upholstered with fire-retardant foam.
- The upholstery is finished with imitation leather and decorative stitching.
- Comfortable wide armrests of ± 10 cm.
- All edges and corners have been rounded.
- No visible fastening elements.
- Solid beech legs, equipped with synthetic glides.

Seat

- Removable seat in melaminated MDF, thickness: 12 mm.
- The rounded seat in front stimulates a fluent blood circulation.
- Comfortable seat height of 44 cm.
- Upholstered with fire-retardant foam. Two different density zones guarantee optimal seating comfort.
- The upholstery is finished with imitation leather and decorative stitching.

Backrest

- The backrest consists of an ergonomic pre-shaped plywood shell, thickness 12 mm.
- Upholstered with fire-retardant foam. This foam has 3 different density zones to guarantee optimal seating comfort.
- The upholstery is finished with imitation leather and decorative stitching.
- Legrest: plywood, thickness 10 mm. Upholstered with fire-retardant foam and finished with imitation leather.

Classic mechanism

- 3 positions: seating position, reading position and relax position.
- The relax mechanism first raises the legs, after which it is possible to further incline the entire relax chair.
- Easy to adjust by pushing yourself off.
- Adjustable without lever manipulation.
- Optimal seating comfort in each position, thanks to the constant angle between the backrest and seat during the inclination.
- Optimal leg support, thanks to the telescopic legrest.
- In the seating position, the legrest is turned inward to make it easier to get up.
